

## **Wyboston Lakes Head Hunter Awarded Top European Accolade**

International executive placement specialist Christopher Luttik has been recognised as one of the UK's leading head hunters when he recently received a Bronze accolade from MRI Network, the oldest, largest and most successful recruitment organisations in the world. Presented at their recent convention in Madrid, Christopher came third out of over 250 European franchisees who find and place top flight specialists and key executives in leading international corporations. His success places him within the top 25 franchisees world-wide within the 1100 strong global MRI Network.

Based at Wyboston Lakes' Knowledge Centre, Christopher works closely with leading organisations throughout Europe, the Middle and Far East. He attributes his success to the academic/highly selective methodology that MRI operates when selecting candidates for roles. He commented "The recruitment industry generally has a poor reputation, putting 9 candidates forward before achieving a successful placement. MRI employs a highly selective, academic methodology which results in a success rate of 6 candidates per placement. I research each candidate

thoroughly to ensure they really do match the client's needs and I am currently achieving a successful placement from just 2.4 candidates, which is probably one of the best success ratios in the UK."

Christopher has over 15 years experience in executive search, and moved his operation from London's Regent Street to Wyboston Lakes' Knowledge Centre six years ago when it first opened its special serviced office facilities. He added "I was one of the first businesses fortunate enough to move into the Knowledge Centre. It has everything I need from the on-site hotel and restaurants to a wide range of professional and leisure services, but all in a secure and superbly relaxing setting. It has easy access by road, rail or air which is important as I entertain clients from all over the world, and I quietly smile to myself when

they say how envious they are that I have such a delightful environment in which to work. Moving to Wyboston Lakes has contributed to my success and was the best move I ever made.”
